

**REMARKS**

Claims 1-20 are now present in this application, with new claims 19-20 being added by the present Preliminary Amendment and original claims it should be noted that the changes between the original claims and the new claims are non-narrowing changes, made solely to place the claims in proper form for U.S. practice and not to overcome any prior art or for any other statutory considerations. For example, the new claims have been broadened; reference characters have been removed; European phrases such as “characterized in that” have been removed; multiple dependencies have been removed; and the claims are now in a more recognizable U.S. form. Again, all changes are non-narrowing and have been made solely to place the claims in proper form for U.S. practice and not to overcome any prior art or for any other statutory considerations.

**Conclusion**

Accordingly, in view of the above amendments and remarks, an early indication of the allowability of each of claims 1-20 in connection with the present application is earnestly solicited.
